

Tidland Slitting Accessories

Blade guard attachment			
<p>An inexpensive way to minimize the risk of operator injury, this blade guard attaches easily to any Performance Series, C Series, or other knifeholders while maintaining existing minimum slit widths.</p>	Class I	659075	
	Class II	659076	
	Class III	659077	

Bench fixture			
<p>Mount the Tidland bench fixture at any angle to make safe and easy blade changes.</p>			
	Performance Series	e-Knifeholder	Series C
	Class I 772398	Class II 731404	Class I 772399
	Class II 772400	Class III 772401	
	Class III 772402		
			

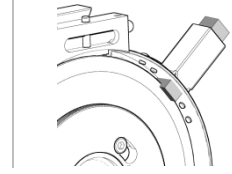

Linear bearing installer			
<p>This short piece of linear rail is shipped with every <i>EasyGlider</i> linear bearing mount. It is required for proper installation of the knifeholder onto the guide bar.</p>	Class I	(1.2")	667628
	Class II	(1.8")	775669
	Class III	(2.8")	773657
			

Coalescing filter/air regulator kit			
<p>The Coalescing Filter/Air Regulator fits between plant air supply and slitting system air manifolds or brakes.</p>	Single valve		520984
	Dual valve		520985
	Dual filter		559913
			

Overlap gauge			
<p>Achieve desired blade overlap every time with these gauge options.</p>			
<p>Fit this gauge between the knife blade and the anvil ring to set the depth.</p>		<p>Class II 765942</p>	
<p>Our modified 4" calipers make it easy to access and measure the chord.</p>		<p>Call for p/n</p>	

Wick tubes

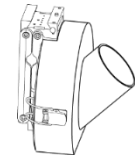

Prevent sticky build-up on your blades or keep them lubricated for special slitting applications. Available for all knifeholder types, this option can be customized with round or square tubes and felt wick material.

Dust removal system

Snap this hood onto your Class III blade cartridge and attach your vacuum system to reduce dust build-up at the knifeholder.

Class II
726187

Blade cartridges with knife blades for shear slitting

Change blades in seconds with complete cartridge replacement assemblies.
